# Andalusia Teacher Training

# ARTIFICIAL INTELLIGENCE

## Chat GPT and AI for teachers

Erasmus+ KA1 Training Course in Córdoba (Spain)

**Erasmus+**

# AI for teachers

Artificial Intelligence (AI) is increasingly finding its way into schools, revolutionizing the education landscape and offering innovative tools for teachers.

Chatbots powered by AI, like ChatGPT, are becoming valuable resources in the classroom.

These AI applications can assist teachers by providing instant support for answering student queries, offering personalized learning experiences, and even aiding in administrative tasks. With the ability to adapt to individual learning styles, AI technologies contribute to a more tailored and inclusive educational environment.

Moreover, they can assist in grading assignments, freeing up valuable time for teachers to focus on interactive and personalized teaching methods.

As AI continues to evolve, its integration into education holds the potential to enhance the overall learning experience, making education more accessible, engaging, and efficient.

## AI in schools, basic benefits

- **Personalized Learning** by adapting educational content to individual student needs and learning styles.
- **Adaptive Assessment:** AI-driven assessment tools provide real-time feedback, allowing educators to identify students' strengths and areas for improvement. This adaptive assessment helps tailor instruction to meet specific learning needs.
- **Efficient Administrative Tasks**: Automation of routine administrative tasks, such as grading, attendance tracking, and scheduling, frees up valuable time for teachers. This efficiency allows educators to focus on more interactive and engaging aspects of teaching.
- **Access to Resources**: AI systems facilitate access to a vast array of educational resources, including interactive learning materials, e-books, and multimedia content. This accessibility promotes a richer and more diverse learning experience for students.
- **Support for Teachers**: AI can assist educators by providing instant support through chatbots, helping with administrative tasks, offering insights into effective teaching methods, and facilitating continuous professional development.

# Course description

Discover how AI tools can empower you as a teacher and personalise the learning experience for your students.

This course is designed for teachers who want to understand and use artificial intelligence tools to improve teaching and learning in the classroom.

Take advantage of cutting-edge educational trends and prepare for the future of teaching. With practical examples and easily accessible tools, this course will give you the skills you need to excel in an ever-evolving educational world.

If you are looking to innovate, personalise your teaching and provide your students with a unique learning experience, this course is for you.

## Learning outcomes

- Stimulate your creativity and create personalised educational resources tailored to the individual needs of your students.
- Be a leader in the field of education by using Artificial Intelligence effectively, implementing new strategies and pedagogical approaches that distinguish you as an innovative professional.
- Optimise your time and resources by using AI to generate educational resources.

## Details

- One week course
- Starting from 480€ (Cultural activities included) *
- Min. 4 - max. 14 participants
- Certificate of attendance included (80% of attendance required)
- Available in Córdoba
- Also available in Spanish

* A 60 € late registration fee will be applied if you register less than 8 weeks before the course start date.

# Tentative schedule

## Day 1. Course introduction

- CHECK IN. Emotions, expectations and focus
- Introduction to Artificial Intelligence
- What is Artificial Intelligence?
- Uses of Artificial Intelligence in Education

## Day 2. ChatGPT

- ChatGPT and Artificial Intelligence
- Chat GPT and its features
- Creating a Chat GPT account

## Day 3. AI in the classroom

- Chat GPT in the classroom
- Chat GPT Supporting the teacher
- Automatic creation of written content

## Day 4. Image generation with AI

- Generating images with Playground.ai
- Image generation with Leonardo.ai
- Generating presentations with Wepik
- Generating presentations with Tome.app

## Day 5. Empowering the use of AI video

- Generating automated video with Friki
- Generating automated video with Studio Id.

This schedule describes likely activities but may differ significantly based on the requests of the participants, and the trainer delivering the specific session.

Course modifications are subject to the trainer's discretion. If you would like to discuss a specific topic, please indicate it at least 4 weeks in advance.

# About the provider

Andalusia Teacher Training is a training company founded in 2018 focused in the attitudinal training and the improvement of human performance. The company works with clients with the aim of increasing their results both in personal or professional areas, developing techniques and strategies in the areas of coaching, Emotional Intelligence, soft skills and Neuro Linguistic Programming (NLP).
Andalusia Teacher Training learns from the experience gained by its staff, professionals with years of background in the fields of training and the development and management of transnational projects in the frame of Erasmus + Program. Andalusia Teacher Training is currently made up of a multidisciplinary team of 8 people, with backgrounds in languages, translation and interpreting, psychology, international relations, pedagogy and communication.

In the field of international projects, the staff has a solid background in the development and implementation of funded projects in the frame of Erasmus+ and in the areas of entrepreneurship, leadership and application of coaching, Emotional Intelligence and soft skills to different fields. In the last five years we have been involved in more than 50 KA2 projects, of which more than 25 have been developed by our staff.

**José Antonio Alonso**: Has studies in Economics and Psychology. He is Master in Coaching and EI, Master Trainer in NLP (Spanish NLP Association), Expert in Gestalt therapy and Master in Ericksonian hypnosis.

**José Carlos León:** Coach with a large experience training teams, persons and organizations using EI tools. With a degree in English Philology, he has also been tutor in the Master of Coaching of the University CEU San Pablo and facilitator in the areas of EI and NLP.

# Enjoy training... and Andalusia

Obviously, training is a key aspect, but the environment makes the experience complete. That's why Cordoba is the best possible setting, the only city in the world with four World Heritage Sites by UNESCO, a city steeped in history and culture, and also the ideal place to discover Andalusia.

Less than an hour away by train you can enjoy the bewitching Seville, the cosmopolitan Malaga and the haunting Granada, as well as having some of the best beaches just two hours away by car. All in the best connected city in Spain by high-speed train, 1.45 minutes from Madrid and in the centre of Spain's most charming region. Are you going to miss it?

# How to get to Córdoba?

Córdoba has no airport, but there are excellent connections to our city from three international airports thanks to the AVE (High Speed Train):

- Madrid. 400 kilometres, 1.45 hours to Córdoba by train.
- Seville. 130 kilometres, 45 minutes to Córdoba by train.
- Málaga. 145 kilometres. 50 minutes to Córdoba by train.

**Málaga** is the best option, due to the high amount and variety of international destinations and the facilities to link your flight to the train.

**Madrid** International Airport Adolfo Suárez is the biggest airport in Spain and it has connections with all the important destinations in Europe. Flights use to be cheaper and both the frequency and the options are higher, so it is also a good chance.

**Seville** is another option, though destinations and frequencies are not the best. Check if it fits your plans.

Train. There are different companies offering connections from and to Madrid, Málaga and Sevilla to Córdoba. The sooner you book, the cheaper!!

- RENFE (www.renfe.es). In trains from and to Seville or Málaga, you will find AVE and AVANT. The service is the same, though this last one is cheaper. It happens the same from Madrid with AVE and ALVIA.
- IRYO. (https://iryo.eu). Cheap tickets if booked with months in advance.
- AVLO (https://avlorenfe.com). From June 1st 2023. Renfe low cost brand.
